

Graphics Tablet

A5 / 5.25 x 8.75 in.; Improves creativity with intuitive input, software integration and accurate control

A versatile digital tool that helps improve creativity and productivity.

Model
177405

The MANHATTAN® Graphics Tablet offers a flexible way to work with Adobe PhotoShop, Illustrator and Flash, Corel Painter, Autodesk Maya and 3D Studio Max, Pro/E and other popular software applications. Ideally suited for photographers, designers and artists, its capabilities can help a wide range of new users find innovative ways to help maximize creativity and productivity.

The Right Set of Features and Design Tools

The lightweight RF wireless pen — with 1,024 pressure sensitivity levels and tilt — enables the creation of computer graphics, technical drawings and other digital documents in a way that's more natural and instinctive. Its programmable buttons are easily customized to suit users and project requirements. Automatic power-save reduces battery drain and keeps both devices ready for use. An integrated menu strip contains built-in hotkeys for on-tablet control of frequent menu commands and application functions without using the mouse and interrupting workflow. A transparent overlay helps protect the active area and easily lifts to help secure documents and photos for tracing.

It's Not Only for Artists

More precise and intuitive than a traditional keyboard and mouse combination, every point on the tablet has a corresponding location on the screen. Cursor positions are matched with pen movements, providing a "pen tablet" function that helps support handwriting recognition for note-taking and meeting minutes, handwritten e-mail and signatures, signature capture, and authentication and pen navigation. The MANHATTAN Graphics Tablet complements digital whiteboards in training, classroom and presentation applications.

Easy, Quick Installation for Comfort, Control and Productivity

Compatible with Windows and Macintosh systems, the MANHATTAN Graphics Tablet includes driver CD and a USB connection for quick setup without the need for an external power supply. Its low profile and generous cable help provide a natural, relaxed working position to help reduce repetitive motion injury.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
